### KELWAY'S CALIFORNIAN CARNATIONS.

The result of crossing the justly-celebrated variety *Germania* with the American Carnations, a race grown extensively throughout the United States by florists, and noted for its wonderful free-flowering qualities. The wonderful freedom of the latter is combined with the strong habit and handsome vigour of *Germania* and also very great brilliancy of colouring. In all colours, fine and clear, with large *Germania*-like blooms, and as a whole with noticeable disinclination to "burst."
